IN MEMORIAM:

GOWIN: In sad but loving remembrance of my husband and our Father, Henry Harrison Gowin, who passed away two years ago today, June 11, 1948.
Beside your grave I often stand,
With heart both crushed and sore;
But in the gloom the sweet words come,
Not lost, but gone before.
Some day I hope to meet you,
Some day I know not when;
We shall meet in a better land,
And never part again.
So I'll be brave, dear Henry,
And pray to God each day,
And when He calls me home to you,
Your smiles will guide the way.
—Wife.

Farewell dear Daddy, thy work is o'er,
Thy willing hands will toil no more.
A loving Daddy, kind and true,
No one on earth we'll find like you.
—Children.

Egg Preservation Methods Seen Due for Improvement

Present methods of preserving table eggs may be revolutionized by the use of a new compound developed by Dr. Alexis Romanoff and W. D. Yushok of Cornell's agricultural experiment station.

The compound, a mixture of a plastic substance called polystyrene, with chlorinated rubber and other chemicals, forms a film over the egg and preserves it at ordinary temperature.

Uncle Sam Says

Political Independence, our "Declaration of Independence," was proclaimed to a young and vigorous nation on July 4, 1776, when citizens were summoned to Independence Hall plaza in Philadelphia by the stentorian tones of the historic Liberty Bell. The actual tone of the Liberty Bell will again be heard throughout the nation during the U. S. Savings Bonds "Independence Drive" May 15-July 4. This time it will peal forth a message of financial independence for the individual, a reminder to every citizen of the importance of savings and Savings Bonds. They make you better equipped to face the future, secure in the reality that yours will be a better, more comfortable future.
